Gridstore Named as Finalist in the 2011 Golden Bridge Awards in Two Categories Including Industry-Technology and Storage Software

Winners Will Be Honored In New York City on August 10, 2011

Mountain View, CA. – July 20, 2011 – Gridstore™ announced today that the Golden Bridge Awards has named the Gridstore Scale-out NAS solution as a finalist for the 3rd Annual 2011 Golden Bridge Awards in the category of Industry-Technology and Storage Software. These industry and peer awards from Golden Bridge Awards are the world's premier business awards program. Organizations from all over the world are eligible to submit nominations including public and private, for-profit and non-profit, largest to smallest including new start-ups. Winners will be honored in New York City on Wednesday, August 10, 2011 during the 3rd annual dinner and presentations.

With the Gridstore Scale-out NAS solution the SMB market now has a turnkey NAS storage system that eliminates storage sprawl and multiple single points of failure while reducing the cost of standalone NAS solutions by as much as 50 percent. The Gridstore storage platform is designed to reduce the risk, cost and complexity of traditional silo-based storage and gives SMBs a "Pay as you Grow" pricing model that allows organizations to add storage as needed without having to over provision and manage storage resources.

An annual achievements and recognition awards program with active participation from a broad spectrum of industry voices, the coveted annual Golden Bridge Awards program encompasses the world's best in organizational performance, products and services, executives and management teams, innovations, case studies, product management, public relations and marketing campaigns and customer satisfaction programs from every major industry in the world.

"It's an honor to be named a finalist by Golden Bridge Awards for this esteemed industry and peer award," said Kelly Murphy, CEO, Gridstore. "This further validates our position as a company addressing the storage challenges for SMBs by providing an enterprise-class, scale-out NAS solution our customers need with the simplicity and reliability they require at half the cost of standalone NAS offerings."
